

Join Audubon of Southwest Florida!

Chapter membership is open to any person interested in the conservation, educational, scientific, literary, historical and charitable pursuits of Audubon of Southwest Florida, Inc. Chapter membership includes membership in the National Audubon Society - Chapter E33, and Audubon of Florida. You do not have to be a resident of Southwest Florida to be a chapter member and support our efforts - snowbirds and tourists welcome. See our website, www.AudubonSWFL.org, for more information about the chapter's activities and programs.

As a member of Audubon of Southwest Florida you will receive *Audubon* and *Florida Naturalist* magazines, our newsletter- *Flyways*, and get a 50% entrance discount at Audubon facilities, including Corkscrew Sanctuary, with presentation of your membership card. Your first magazine and membership card will arrive in 4-6 weeks from the National Audubon membership center.

Contributions to Audubon of Southwest Florida, a 501(c) (3) not-for-profit organization, are tax deductible to the extent allowed by the U.S. Internal Revenue Service. A national Audubon promotion, 79N9, results in all new national membership payments being returned to the chapter. All donations to Audubon of Southwest Florida are spent in Southwest Florida.
